Make waves in the urban playground. Nissan QASHQAI kicks out conventions to write its own rules. Clear the way for the QASHQAI: the nimble crossover with a super-sleek dynamic look and all the strengths and agility of an athletic design. With a high driving position for a broader visibility and improved aerodynamics for a smoother, quieter drive, it's an urban legend in its own time.

Thanks to Nissan QASHQAI's remarkable drivability and dynamic vehicle responsiveness, you can drive your own way confidently.

Art in Motion

It came. It proved. It conquered.

QASHQAI and QASHQAI+2: the ultimate crossover master the city.

Street Styling

Whether it's in suburbs or downtown, uptown or city central, the Nissan QASHQAI is equipped to handle whatever the city can throw at you. It'll get you in touch with your inner city and take you from conventional to commanding, as you become the new master of the concrete jungle.

The Nissan QASHQAI just can't help attracting. It's intriguing - imposing yet compact, tough yet elegant. Athletic and energetic, it looks as good standing still as it feels when you're driving.

Experience the ultimate in drive comfort and noise reduction with Nissan's unique 4-layer dash insulator technology and acoustic windscreen. Roll 'em out quietly and confidently thanks to optimised engine noise isolation and aero-acoustics.

Aerodynamics improvement means better fuel consumption and CO₂ emissions reduction.

Natural Wonder

Nissan QASHQAI is available in three specification grades. Visia is bold outside, while the inside trim is relaxed with chic simplicity. Acenta has a mood of contemporary elegance, yet retains a subtle sense of style while expanding on Visia's extensive specification. Now with the 4x4 Acenta you can break conventions, rewrite the urban street rules and still be the inspiration that dictates trends.

For the highly economical QASHQAI option the 1.5 litre dCi, with 5.1l/100km combined fuel consumption and 135g/km CO₂ emission levels, is firmly assisting Nissan's endeavour and commitment to eco-friendliness. The Nissan QASHQAI 1.5 litre dCi is fitted with advanced Bosch common rail direct injection system, ensuring the engine is always working as efficiently as possible offering and enjoyable performance in a smooth, refined and environmentally-friendly manner. Only the Ultra Low Sulphur (ULS) 50ppm Diesel should be used in the QASHQAI 1.5 litre dCi model.

If you want to take it easy, there's automatic Continuous Variable Transmission (CVT) available on the 2.0 litre petrol. By a complex system of gears the CVT equipped gearbox allows for effortless, smooth gear changes and driving experience. CVT is computer controlled and the revs stay constant, ensuring better efficiency and performance for your engine, resulting in smoother acceleration.

If you're feeling adventurous, you can opt for ALL MODE 4x4 with a 2.0 litre dCi engine. The ALL MODE 4x4 system makes it an extremely capable off-road vehicle. The fast reacting ALL MODE 4x4 engages all four wheels when conditions demand, reducing fuel consumption and minimising emissions. The auto mode is proactive and reactive. When sensing a potential loss of grip the control unit instantly corrects the torque and automatically engages the rear wheels to maintain stability. Experience the remarkable grip, the sensation of being glued to the road, the sheer confidence that you feel with the ALL MODE 4x4."

Nissan's commitment to the environment: Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the NISSAN GREEN PROGRAM aims to reduce the environmental impact of NISSAN vehicles at every stage of the vehicles life cycle, while corporate activities address environmental challenges.

Lasting Impressions

Refreshing Sound

Nissan QASHQAI is always ready to entertain anywhere, anytime and any place. Now with MP3, iPod USB compatibility with Auxillary jack and Bluetooth audio streaming

Easy does it

Controls on the steering wheel for your integrated Bluetooth and audio system. With cruise control on 2i Acenta models.

Love to take everything

The huge 14 litre glove box offers lots of room and can be cooled by the air-conditioner. On Acenta models the front seats have expandable pockets at the back to offer a surprising amount of space for magazines, CD's or whatever else you want to take with you.

Love the thoughtfulness

The centre console holds up to eight of your favourite CD's plus two cup holders. You can also access the 12V power socket.

Even more!

When it's upright, the back and 2nd row armrest provides a handy storage box for your 3rd row passengers on QASHQAI+2.

Ingenious cargo divider

When the 3rd row seats in the QASHQAI+2 are upright, the divider flips up so that you can stow away the pullout load cover and create even more luggage space.

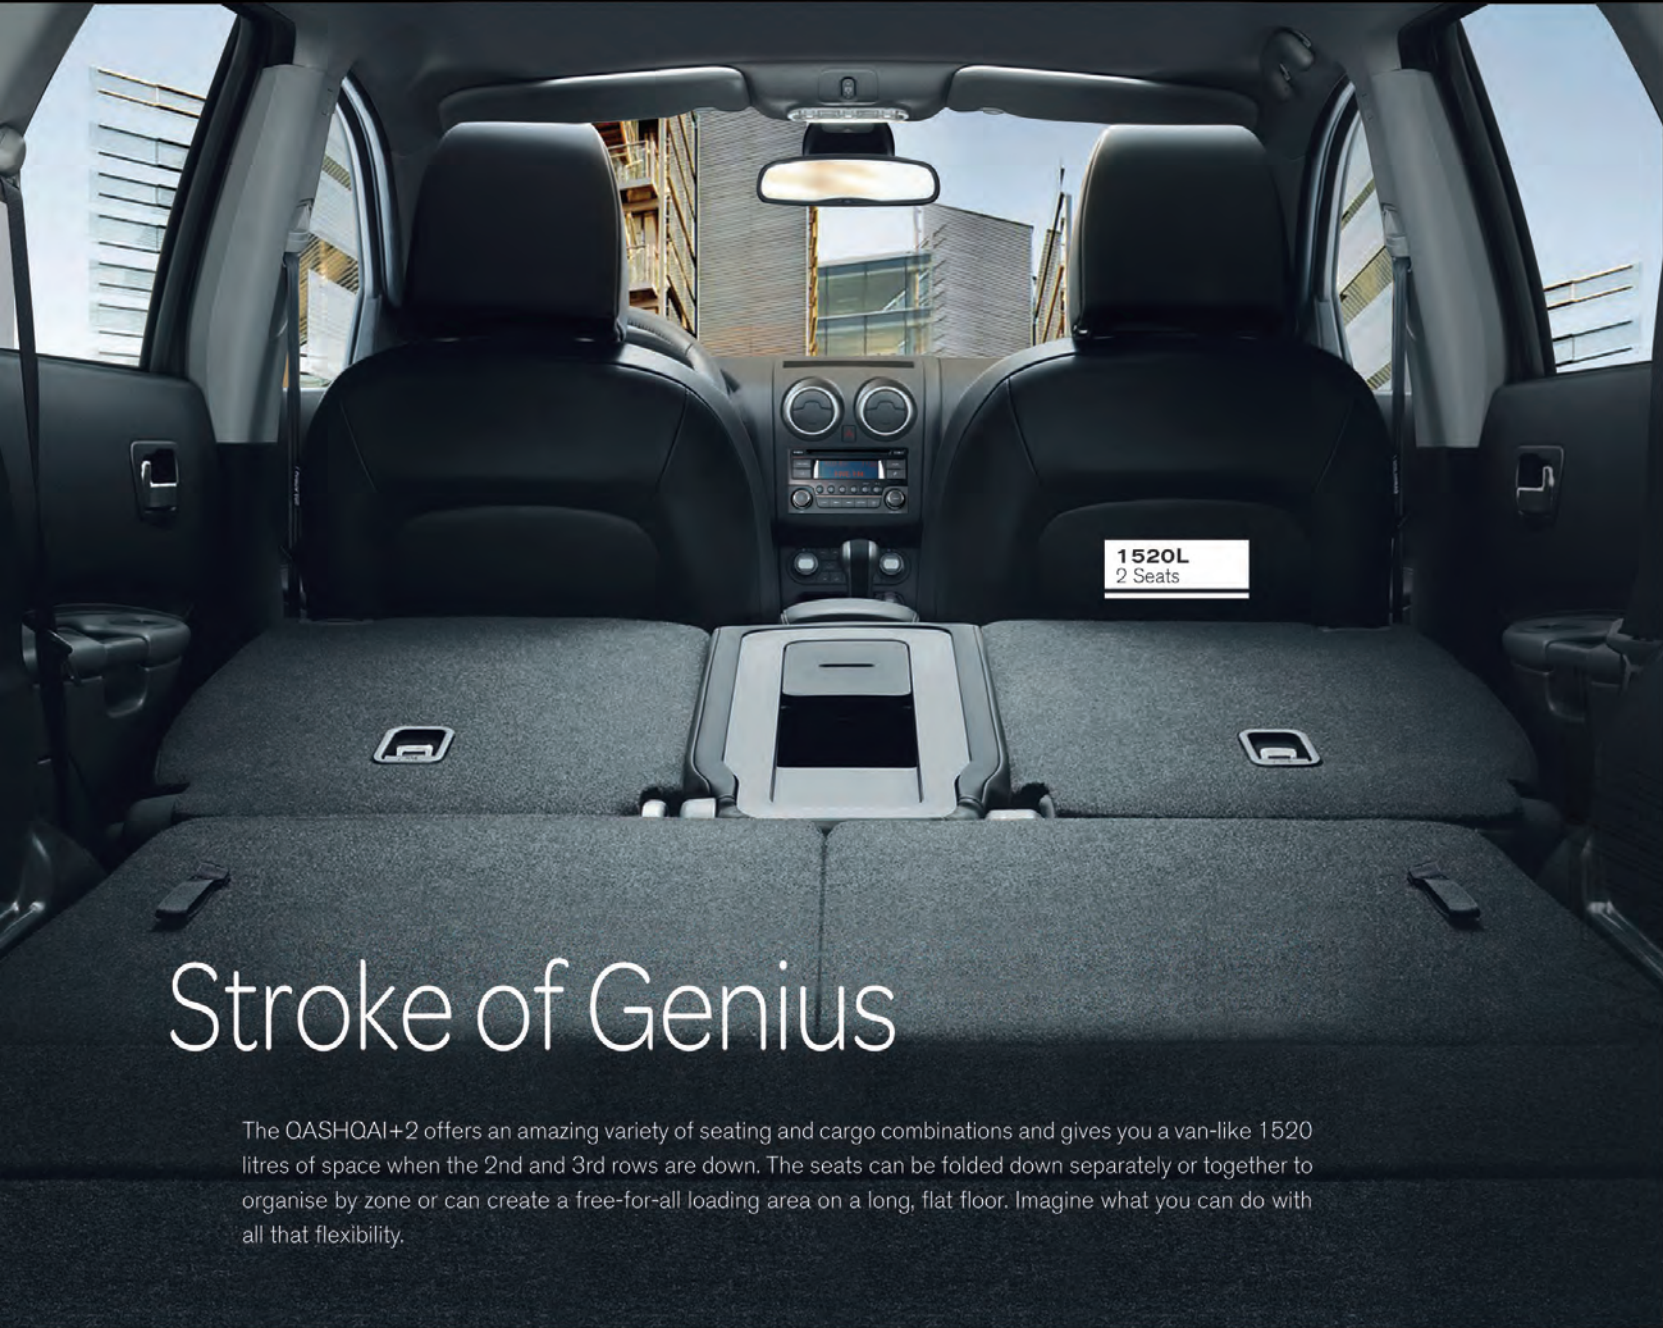

Interior of 2.0 Acenta CVT shown.

Designer Comfort

Nissan QASHQAI flouts another convention. Now a car's interior can be involving yet relaxing, spacious yet unique. Nissan QASHQAI's concentrated independent driver design wraps around you to create a fun, sporty feel without compromising on the driver's personal space. Passengers aren't left out as the entire interior is designed to feel roomy, refined, light and airy. The 7-seater QASHQAI+2, with the uncompromised design and sleek styling of the original QASHQAI, offers even more versatility with a slightly extended wheelbase to accommodate a 3rd row of seats.

Experience how good it feels.

Stroke of Genius

The QASHQAI+2 offers an amazing variety of seating and cargo combinations and gives you a van-like 1520 litres of space when the 2nd and 3rd rows are down. The seats can be folded down separately or together to organise by zone or can create a free-for-all loading area on a long, flat floor. Imagine what you can do with all that flexibility.

Creative Harmony

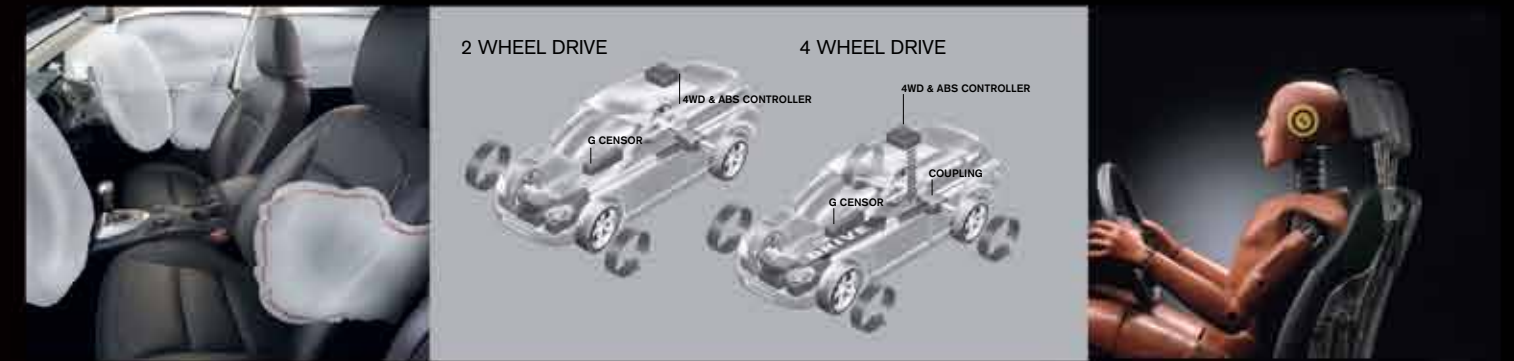

The Nissan QASHQAI range gets their zest for driving from the lightweight aluminium 2.0 litre 102kW petrol or state-of-the-art 2.0 litre dCi 110kW diesel engines. As an extension to the multi-award winning Nissan QASHQAI, the new 1.5 litre dCi, which delivers 78kW of power and an impressive 240Nm of torque, is a remarkable offering with lower fuel economy and emissions. With 6-speed gearboxes on all engines (except the 1.6 litre petrol), the response is exciting yet quiet and refined.

Image of accessorised vehicle shown.

Safety Net

Nissan QASHQAI's strength contributes to its dynamic safety and excellent performance. The highly protective rigidity contributes to secure and stable road holding, with suspension specially tuned to give clear driver feedback for both enhanced safety and enjoyment.

FIVE STAR EURO NCAP: The European New Car Assessment Programme announced that Nissan QASHQAI has been awarded the maximum five-star rating for adult occupant protection.

VEHICLE DYNAMIC CONTROL (VDC): Cope with emergencies confidently; with the latest generation VDC on the 2.0 litre Acenta model, this technology helps to keep you on course, especially useful when making evasive manoeuvres to avoid danger.

ALL MODE 4X4: Electronic sensors and controls measure wheel spin and distribute torque automatically, with up to 50% to the rear wheels. (Only available on the 2.0 litre diesel).

INDEPENDENT REAR MULTI-LINK SUSPENSION: Secure cornering and ensures stability at high speed.

6 AIRBAGS ARE STANDARD: Dual front, side and curtain airbags provide the ultimate in safety.

INTELLIGENT PROTECTION: In a rear impact, the front seat active headrests move forward to reduce the risk of whiplash injury.

LARGE DIAMETER BRAKES: Anti-lock Braking System (ABS), Electronic Brake force Distribution (EBD) and Brake Assist (BA) provide class leading, progressive stopping power.

FEEL SAFE: Seatbelt pretensioners that tighten instantly on impact.

ISOFIX CHILD SEAT ANCHORAGE: To ensure absolute peace of mind, the ISOFIX child safety anchorage comes standard.

THE ZONE BODY CONSTRUCTION: Crushable Zones absorb impact energy and a strong "Occupant Zone" helps protect the vehicle occupants.

Safety Shield: In the commitment to 'Real World Safety', NISSAN pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help driver and passengers to avoid danger and injury. Visit www.nissan.co.za to find out more.

Artistic Expression

It's your car, so why shouldn't it look that way? Nissan QASHQAI has a range of accessories to help you celebrate your individuality and make your driving experience more personal, convenient and fun.

Accessories shown on this page include:

1. Rear styling plate.
2. Leather seats: black, black and red.
3. High quality embroidered mats
4. Stainless steel front styling corners.

Other accessories available for the QASHQAI include:

- stainless steel side bars
- stainless steel rear styling bar
- front styling plate
- towbar
- bonnet guard
- roof bars

Nissan's commitment to quality: To provide all customers with a consistently high level of quality, Nissan applies the same standards worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: First, the expectation of a smooth driving experience with complete peace of mind. Second, the intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. Third, the level of attentiveness and service during the sales process, and long after the sale is concluded.

Quoted fuel consumption and emission values have been established using the prescribed method of measurement (United Nations Economic Commission for Europe "ECE" Regulation R101 in the current version) as required under current legislation. This data does not pertain to the specific vehicle and does not comprise part of the offer, but is supplied for the purpose of comparison between the various types of vehicle, in accordance with 1999/94/EC. Driving behavior/conditions and other non-technical factors contribute towards a vehicle's fuel consumption and CO₂ emissions over and above the determined fuel efficiency of a vehicle.
